High Speed Internet

Looking for VALUE from your service provider?

Mid-Rivers Delivers.....

- The **FASTEST** Internet speeds available in your area
- Regular investments in network upgrades to make sure you **RECEIVE** the speeds we advertise
- **FREE** Installation by Professional **LOCAL** Technicians
- **FREE** equipment*, including Wi-Fi modems
- **FREE** wireless home networking services!* Our Technician will set up your home wireless network, connect multiple computers, and hook up your Internet-connected TV's, gaming consoles, and other devices!
- **FREE** email addresses and web page space
- **MORE DATA** for your money! Our new Internet plans include the ability to do more surfing, streaming and downloading than ANY competitor's plan.
- **FREE** access to ESPN3.com!
- **24/7/365 LOCAL** technical support, toll-free at 1-800-452-2288.

Call today to take advantage of our NEW high-speed Internet plans!

Plan	Download Speed	Monthly Charge	Best For
Ultimate	up to 20Mbps	\$99.95	The Full Power of the Internet
Preferred	up to 12Mbps	\$79.95	Small Business & Online Gaming
Choice	up to 8Mbps	\$49.95	Video Streaming & Uploading
Basic	up to 1.5Mbps	\$34.95	Basic Internet & e-Mail Users

Plans are available to new Mid-Rivers Internet customers or existing customers wishing to move to a higher speed. **Speeds and services not available in all areas and distance limitations apply.** Plans include 300 Gigabytes (GB) of data access (combined downstream and upstream) per monthly billing cycle. Additional data used over 300 GB during a billing cycle will be billed at \$10.00 per 50 GB; service will not be interrupted and speeds will not be "throttled."

Speeds advertised are maximum available downstream speeds. Upstream speeds are generally up to 512 Kbps on the Basic plan, up to 800 Kbps or 1 Mbps on the Choice and Preferred plans, and up to 2 Mbps on the Ultimate plan. Actual downstream and upstream speeds provided will vary due to available facilities at the customer's location, customer equipment, the Internet sites being accessed, and other factors.

Selecting the right plan

When selecting a Mid-Rivers Internet plan, consider how you will be using your Internet connection, and how many devices you will have connected at a time. Mid-Rivers recommends at least 1.5 to 3 Mbps per device that will be connected. To stream a television show over the Internet, you will need at least 3Mbps of Internet available to that device.

The total Internet speed that is provided to each of your devices is split among the number of devices using that connection. For example, if you have the Choice Internet plan with an 8 Mbps download speed and you only have a laptop connected to the Internet, that laptop is getting the full 8 Mbps of speed. However, when a family member connects their tablet to this same connection and the tablet begins using 4 Mbps of the available 8 Mbps, that leaves the person on the laptop with 4 Mbps. Each additional device that is connected will take a portion of the total available speed, reducing the speed available to each of your individual devices. As you add devices to your home or work network, make sure to consider that you may also need to move up to a higher Internet plan.

What Can I Do with 300 GB of data?

- Listen to over 11,000 hours of 64 Kbps music streaming
- Watch more than 1,000 hours of "good quality" streaming video
- Stream two long HD movies a day every day for a month

Get more VALUE for your money with Internet service from Mid-Rivers Communications!

For additional information regarding High-Speed Internet, please contact Mid-Rivers Customer Services at (800) 452-2288 or send an email to: customerservices@midrivers.coop

*Services and speeds not available in all areas. Standard modem free with one-year service agreement; Wi-Fi modem or router free with two-year service agreement. New Internet service installations include free installation and up to 30 minutes of free home networking; additional charges will apply for equipment installation and networking services outside of the initial Internet service installation. Additional restrictions may apply, see Mid-Rivers for details.

WildBlue. For detailed information on the WildBlue network management practices, performance characteristics and pricing, please visit <http://www.wildblue.com/>.

Mid-Rivers does not currently have any restrictions on the types of legal devices that can be connected to our Internet network. Customers may connect their choice of legal devices that do not harm the network. Mid-Rivers will work with each customer and each device on a case-by-case basis to resolve any connection issues that may arise. Any such connection issues are due to the capabilities of the device itself and are not a result of any network management practices by Mid-Rivers.

Commercial Terms

Pricing

Mid-Rivers Internet plans currently offered to customers provide 300 GB of combined upstream and downstream data usage per monthly billing cycle, with additional data usage billed at \$10 per additional 50GB block of data. Customers on these plans are notified of their data usage throughout the billing cycle via a daily in-browser notification unless they choose to opt out of such notifications. Early termination fees may apply for customers taking advantage of free or reduced-price equipment offers. Free e-mail addresses, up to 10 MB of web page space, and emailGUARD e-mail filtering service are all provided with each Internet subscription; services such as additional virus protection and online backup are available for an additional monthly fee. Mid-Rivers' standard monthly Internet rates for commercially available residential and business Internet offerings are summarized in the following table.

Technology	Advertised Speeds (Down/Up)	Actual Speeds Measured (Down/Up)*	Actual Latency Measured (ms)*	Monthly Rate**
Digital Subscriber Line (DSL)	<u>UP TO:</u> 12 Mbps/1 Mbps 8 Mbps/1 Mbps 1.5 Mbps/512 Kbps	12.13 Mbps/0.855 Mbps 7.977 Mbps/0.872 Mbps 1.567 Mbps/539 Kbps	72 85 44	\$79.99 for 300GB \$44.95 for 300GB \$34.95 for 300GB
Cable Modem	<u>UP TO:</u> 20 Mbps/2 Mbps 12 Mbps/1 Mbps 8 Mbps/1 Mbps 1.5 Mbps/512 Kbps	19.853 Mbps/2.00 Mbps 11.907 Mbps/1.047 Mbps 7.843 Mbps/1.060 Mbps 1.543 Mbps/570 Kbps	14 11 13 14	\$99.95 for 300GB \$79.95 for 300GB \$44.95 for 300GB \$34.95 for 300GB
Fiber to the Premise (FTTP)	<u>UP TO:</u> 20 Mbps/2 Mbps 12 Mbps/1 Mbps 8 Mbps/1 Mbps 1.5 Mbps/512 Kbps	19.683Mbps/2.100 Mbps 12.010Mbps/1.137 Mbps 8.063Mbps/1.137 Mbps 1.453 Mbps/710 Kbps	14 15 10 15	\$99.95 for 300GB \$79.95 for 300GB \$44.95 for 300GB \$34.95 for 300GB
WildBlue Exede (New packages)	<u>UP TO:</u> 5 Mbps/1 Mbps 5 Mbps/1 Mbps 5 Mbps/1 Mbps	See note below***		\$54.99 (10 GB) \$79.99 (15 GB) \$129.99 (25 GB)
Wildblue Satellite (Old packages no longer available to new subscribers, though existing subscribers can move between plans)	1.5 Mbps/256 Kbps 1.5 Mbps/256 Kbps 1 Mbps/200 Kbps 512 Kbps/128 Kbps Enterprise Accounts 1.5 Mbps/256 Kbps 1.5 Mbps/256 Kbps 1 Mbps/200 Kbps 512 Kbps/128 Kbps 64 Kbps/64 Kbps	See note below***		\$49.95 (New cust.) \$79.95 (Existing cust.) \$69.95 \$49.95 \$199.95 (48 GB) \$139.95 (30 GB) \$109.95 (21 GB) \$79.95 (15 GB) \$36.95 (15 GB)

*Actual speed and latency measurements last updated 7/1/14. Mid-Rivers has developed and reviews on a regular basis a methodology for tracking the accuracy of the speed and latency information presented here. These procedures are consistent with standard industry practice, utilizing the same software and testing timeframes used by participants in the FCC's broadband performance measurement project. Testing is conducted across geographic areas to insure that measurements are accurate across the network.

**Rates listed do not include any promotional or other types of discounts that may be available. Additional plans not listed may be available on an individual case basis depending on the capabilities of the facilities available at an individual customer's location. Table does not include Internet plan offerings that are not advertised or grandfathered plans that are no longer available to new customers.

***As a reseller of WildBlue satellite service, Mid-Rivers has no control over the performance characteristics or speed test methodologies utilized by WildBlue - please visit <http://www.wildblue.com> to view the WildBlue Open Internet disclosures.

Privacy Policies

While working with a customer to troubleshoot connection issues or other matters, Mid-Rivers may occasionally collect information on network traffic specific to that particular incident. This information is used only for network troubleshooting purposes, and only information on packet source, destination, and port number is collected. Packet payload information (information other than the header information) is not examined in this process. This information is not stored by Mid-Rivers, provided to any third party, or utilized for any other purpose such as marketing.
